ABOUT THE COMPANY

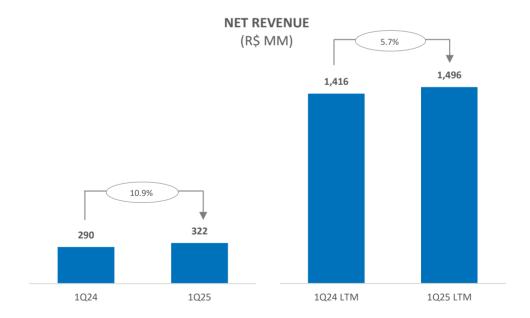

Message from Management

The year 2025 begins with a quarter of good business recovery in terms of profitability, reinforcing our thesis that new business crops will have better returns. The Brazilian macroeconomic scenario, with high interest rates, unanchored inflation and a more challenging funding scenario, continues to be a challenge for business and growth volume. The Patrimar Group continues to position itself cautiously but takes advantage of the still strong demand in the high-end segment, as well as the strength of the pent-up demand in the economic segment, segments that will be our biggest launch force in the year.

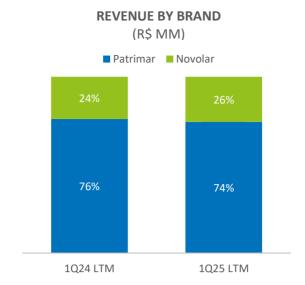

The recent changes promoted by the Federal Government in the Minha Casa Minha Vida Program, including price increases and income ranges, as well as the creation of the new range of the Program, Track 4, with properties up to R\$ 500 thousand, will boost our volume of launches and sales, since we currently have almost R\$ 1 billion in PSV in this range in the landbank and which will have their launch cycles anticipated.

Business Growth

We started 1Q25 with an increase in revenue as a result of a good sales volume in 2024 and the progress of our works.

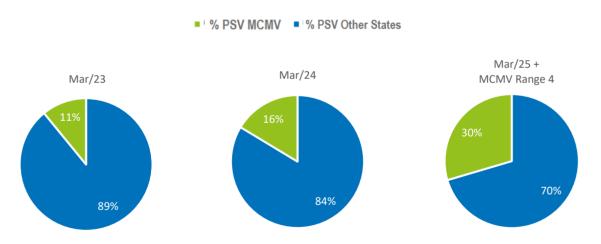

The net revenue of the brands in 1Q25 LTM showed slight growth of the Novolar brand, in line with our business balancing strategy.

As we have commented in our previous messages, the Group will have two major focuses for 2025 and the following years, maintaining the expected macroeconomic scenario, which are: i) increased profitability and ii) growth of the operation in the Minha Casa Minha Vida Program. As for the first topic, we talk more in detail below, and about the second topic, we already have a growth in the land bank, a pipeline of projects and acquisitions with a fast approval cycle, and now, with the increase in ranges, values and the creation of MCMV Track 4, the trend is for this expected growth to gain even more traction in our business mix.

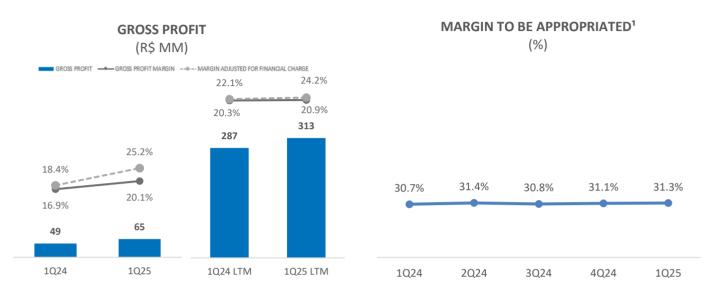

"MINHA CASA MINHA VIDA" PARTICIPATION IN LANDBANK 100%

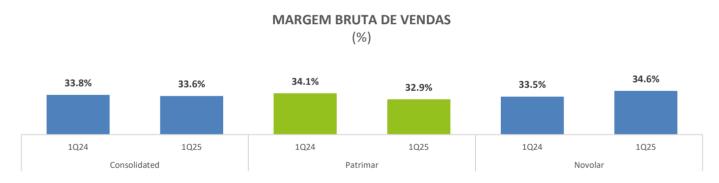

The information above already includes our projects up to R\$ 500 thousand per unit as included in the Minha Casa Minha Vida Program. We do not rule out adjustments to projects that today would be out of place so that they fall within this range.

Profitability

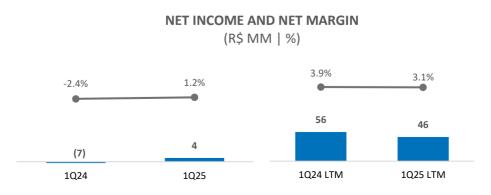

We improved our gross margin adjusted for financial charges compared to 1Q24, although it was 2.1 p.p. lower than the margin observed in 4Q24 (adjusted gross margin of 27.3% in 4Q24). The Company remains strongly focused on recovering profitability in the projects and several actions designed in 2024 have already begun to have an effect.

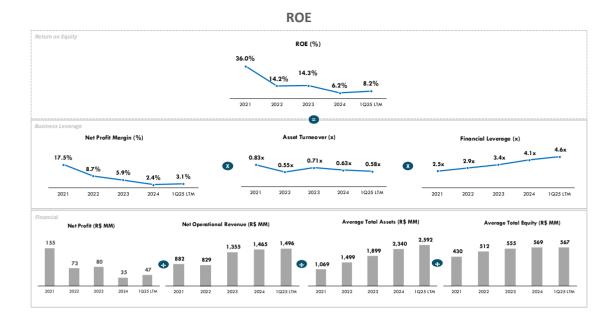

Sales in the quarter performed well and corroborate our expectation of profitability recovery, even with a more challenging macroeconomic scenario.

As already mentioned in the Operational Preview, we did not launch in 1Q25, which impacted on sales volume in a period that is already seasonally weaker. This reduced the dilution of operating expenses and pressured profitability for the quarter. Even so, net income showed relevant growth, benefiting from non-recurring events that negatively affected 1Q24 and the improvement in gross margin. As a reflection of the higher profitability in the period, LTM ROE increased from 6.2% at the end of 2024 to 8.2% in 1Q25.

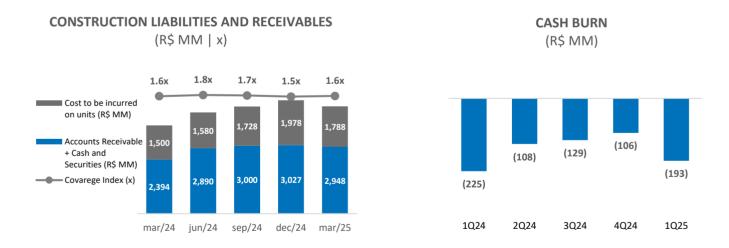

¹ The Margin to Be Appropriated considers only the revenue and cost to be incurred, excluding taxes, sat and other accounting effects.

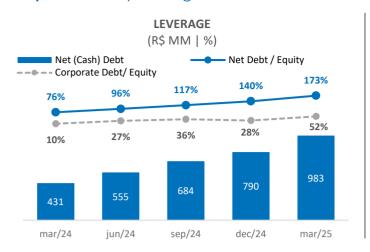

Leverage, Liquidity and Financial Discipline

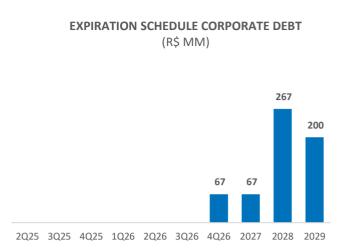

The Company is very focused on reducing leverage and the year 2025 marks the beginning of a cycle of strong cash returns due to the projects launched in the 2021-2024 growth cycle. In the next 12 months we have a volume of receivables of approximately R\$ 841 million, considering that some works are advanced in relation to their initial planning, this amount may be even higher in this period. In 2025 and 2026 alone, with receivables from sales already made by the end of 1Q25, we have a receivables portfolio of R\$1.6 billion. We continue to maintain a comfortable coverage ratio for construction liabilities.

The cash burn in the quarter reflects the construction activities for the completion of the projects, especially the large projects in Rio de Janeiro, which are expected to end in the second half of this year.

The Company reinforces that it is focused on increasing its cash generation and reducing corporate leverage in the coming years.

We maintain a comfortable debt payment schedule, with an extended term. With the debenture issuance transaction settled in May 2025, with a bullet maturity of 5 years, this term is even longer and adherent to the operational and cash cycle of the projects.

In addition, the Company remains attentive to market opportunities and operations aimed at raising new capital for its operations.

7th Issue of Debentures

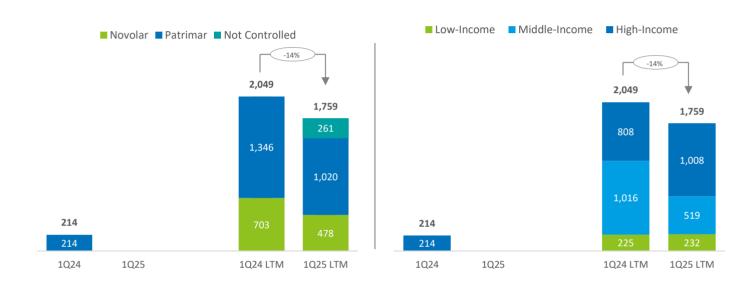

Patrimar Engenharia S.A. announced that its Board of Directors approved, on April 30, 2025, the 7th issuance of simple debentures, not convertible into shares, in the total amount of R\$ 75 million. 75 thousand debentures of R\$ 1,000 each will be issued, with private placement and firm guarantee. The bonds will have a yield of CDI + 1.80% and mature on May 9, 2030 (term of 1,826 days). The financial settlement of the operation took place on May 12, 2025.

Operational Performance

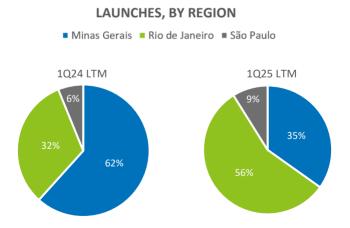

Launches

In the first quarter, we chose not to launch new products, focusing instead on reducing inventory and managing product launches throughout 2025, considering the economic scenario that emerged during this first quarter.

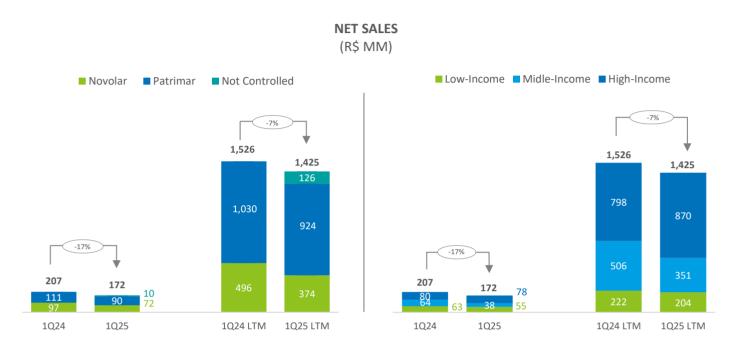

With no launches in the first quarter of the year, our diversification in the last 12 months shows growth in the state of São Paulo.

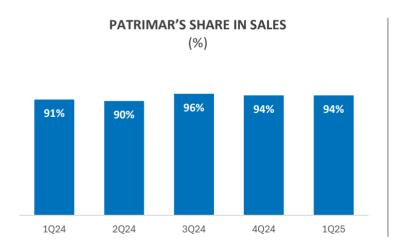

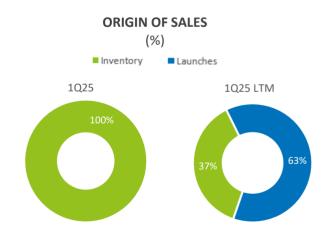

Sales

With no launches in the period, we focused our sales efforts on available inventories, adopting a pricing strategy aligned with the cost scenario and the general economic environment. Sales by segment remained proportional throughout the quarter, reflecting the company's balance in its operations.

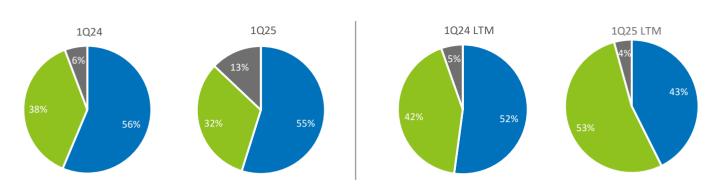

Patrimar's share in sales was 94% in 1Q25 and 92% in 1Q25 LTM.

Sales over Supply - SOS

The SOS for the quarter had a reduction of 2 p.p. compared to the previous quarter, reflecting a softer volume of sales in the period, especially at Patrimar.

In 1Q25 LTM, our VSO was 43% (and 53% in 1Q24 LTM).

Transfers

Due to the construction stage of the projects, the amount of on-lending in 1Q25 was lower compared to previous quarters.

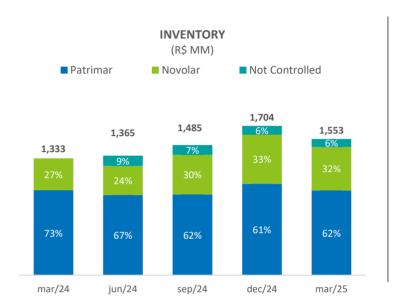

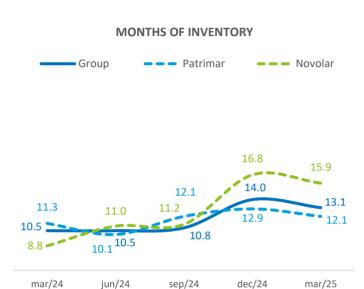

Novolar | Recreio – Rio de Janeiro/RJ Delivered 1Q25

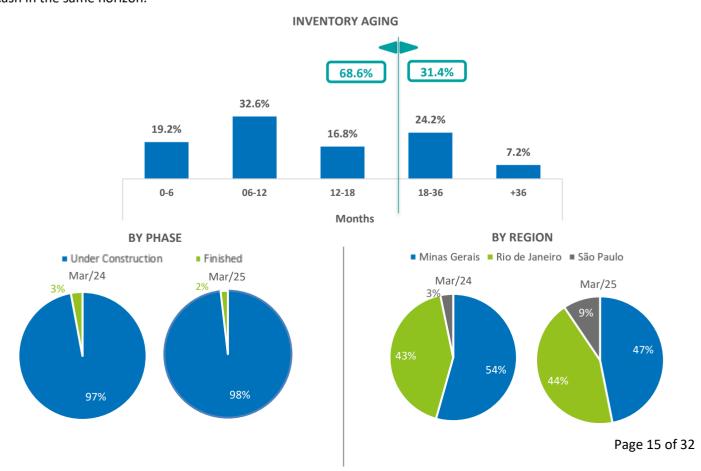

Inventory

With no launches in 1Q25 and with the support of our sales force, we reduced our inventories, keeping them at lean levels. In this scenario, the low volume of completed inventory stands out, which represents only 2% of the total.

More than 68% of inventory aging is concentrated in projects launched in the last 18 months, evidencing the efficiency in sales management and portfolio renewal. Although there is a volume of inventory aging for more than 18 months, most of these units are expected to be delivered in the short term, which increases their probability of conversion into cash in the same horizon.

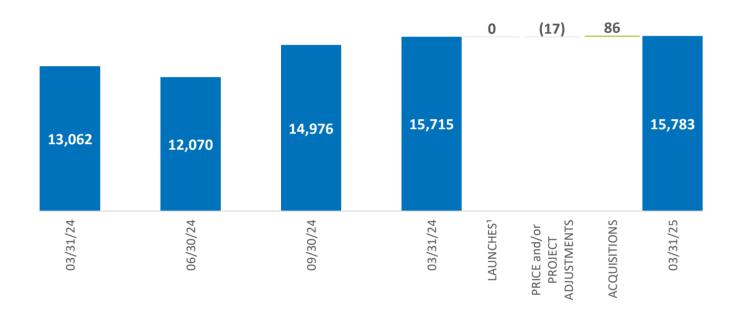

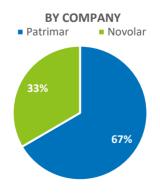

Landbank

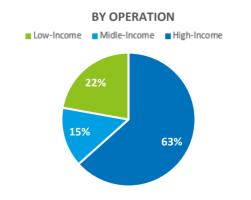

We adjusted our landbank in line with the company's strategic plan for the coming years, with a growing focus on the diversification of projects. This guideline aims to ensure the sustainability and consistent growth of our operations in the long term.

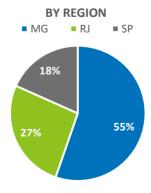

Grupo Patrimar's stake in Landbank is 78% (maintaining the participation registered in December 2024).

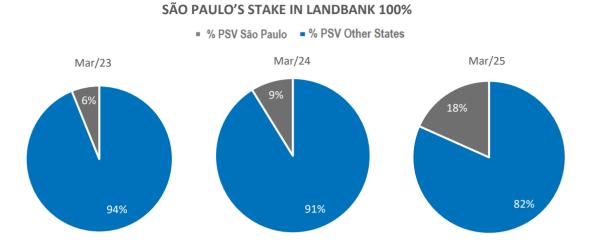

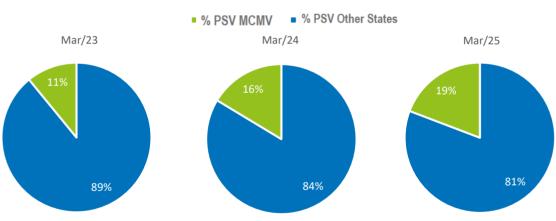

² Launches 100%

In line with the growth and development strategy of our business, the participation of the state of São Paulo in our landbank has grown consistently, which makes it possible to increase the representativeness of this market in our mix of launches and sales in the coming years.

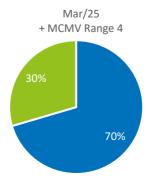

In addition to balancing our operation in the markets in which we operate, we also have a strategy of increasing exposure to MCMV. This segment has grown its share in relation to the others, indicating a greater balance of launches and sales in the coming years between the Patrimar and Novolar brands.

"MINHA CASA MINHA VIDA" PARTICIPATION IN LANDBANK 100%

With the creation of the new MCMV range, approximately R\$ 817 million in PSV of our landbank (1954 units) are now included in the Program, increasing the representativeness of the MCMV Program in our landbank.

Net revenue	321,793	290,219	10.9%	1,496,106	1,415,791	5.7%

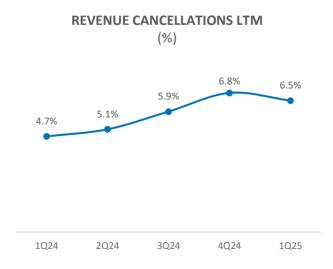

Even without launches in 1Q25, the company presented satisfactory sales volume in the period, whose gross sales revenue grew 7.8% compared to 1Q24, also driven by intense construction activity. Another highlight of the quarter was the 19.5% reduction in cancellations on gross revenue, contributing to greater predictability and operational efficiency.

Novolar's revenues continue a planned growth path, as anticipated in the Company's previous statements.

Within the 1Q25 cancellations, approximately 37% of the PSV contracted refers to upgrades/downgrades in the Group's own properties.

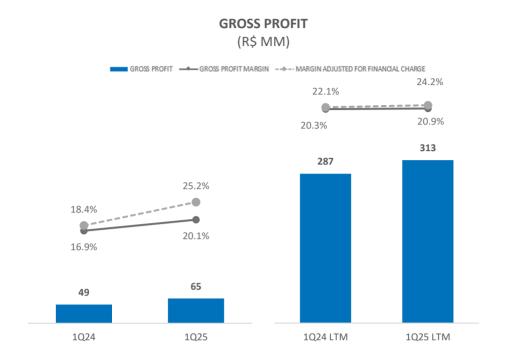

³ It considers: 'canceled sales (cancellations)' plus 'reversal of the (provision) of cancellations' over 'gross revenue'.

Gross Profit and Gross Margin

Adjusted gross margin showed a relevant evolution in 1Q25, reflecting the greater weight of the new crop projects in the composition of revenue, as well as the comparison of extraordinary events in 1Q24.

Equity Result	1,445	(444)	-425.5%	5,352	(2,655)	-301.6%

The equivalent result remains positive, driven by the sales of Aura, a project not controlled by Patrimar that has been showing a consistent volume of sales since its launch in 2Q24, also associated with the start of construction of this project, generating higher results.

Net Income and Net Margin

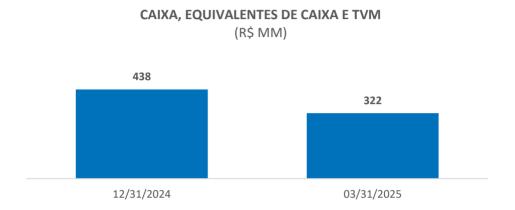

The company reversed the loss recorded in 1Q24, when it presented a negative result of R\$ 7 million, to a profit of R\$ 4 million in 1Q25. The variation represents a growth of approximately 159%, reflecting not only the increase in revenue and gross margin, but also the reduction in expenses.

Balance Sheet Highlights

Cash, Cash Equivalents and Securities

The reduction in Cash, Cash Equivalents and Securities at the end of March, compared to the end of the year, is due to the cash burn recorded due to investments in the operation.

Accounts Receivable

The growth in the balance of Accounts Receivable is mainly the result of the increase in sales of projects launched in previous quarters.

Total	1,304,424	1,187,686	9.8%

The value of Accounts Receivable of units sold and not yet completed is not fully reflected in the balance sheet, since its registration is limited to the portion of revenue recognized by the evolution of the works, net of the installments already received.

⁴ Cash, cash equivalents and securities do not consider the balance of restricted financial investments

Below are the Accounts Receivable of the Group's financial customers, which do not reflect the accounting balance of the projects.

Accounts Receivable (R\$ '000)	03/31/2025	12/31/2024	Δ%
Due within 1 year	751,928	668,937	12.4%
Due 1 to 2 years	745,157	877,624	-15.1%
Due 2 to 3 years	948,713	914,006	3.8%
Due 3 to 4 years	88,535	76,272	16.1%
Due over 4 years	2,024	3,106	-34.8%
	2,536,357	2,539,945	-0.1%
Expired up to 1 year	70,915	34,133	107.8%
Expired between 1 to 2 years	8,059	6,693	20.4%
Expired between 2 to 3 years	4,691	3,811	23.1%
Expired between 3 to 4 years	2,760	2,114	30.6%
Expired over 4 years	2,974	2,439	21.9%
	89,399	49,190	81.7%
Total	2,625,756	2,589,135	1.4%

The increase in the balance of accounts receivable due up to one year reflects a large volume of receivables from a specific project whose work was scheduled to be completed in March, so the maturity of the final installations was associated with this conclusion, but its completion will take place in 2Q25.

Properties for Sales

Properties for Sales (R\$ '000)	03/31/2025	12/31/2024	Δ%
Inventories of land	164,512	149,882	9.8%
Properties under construction	516,507	497,482	3.8%
Completed properties	3,116	5,995	-48.0%
Provision for canceled sales	1,277	1,011	26.3%
Total	685,412	654,370	4.7%

The increase in the balance of properties to be sold is the result of the increase in the stock of properties under construction launched in recent quarters.

Advance from Customers

The balance of customer advances decreased compared to the end of 2024, mainly influenced by the lower land exchanges in the period, due to the absence of new launches. There was also a reduction in advances received directly from customers.

Advances from Customers (R\$ '000)	03/31/2025	12/31/2024	Δ%
Advances from costumers and barter transactions for construction in progress	320,858	363,768	-11.8%
Barter made for land - not launched develompments	10,896	16,884	-35.5%
Total	331,754	380,652	-12.8%

Trade Playables

The increase in the balance of suppliers is linked to the growing construction activity as well as to an extension of the payment cycle that the Company has been promoting in order to reduce its need for working capital in the operation.

Trade Playables	03/31/2025	12/31/2024	Δ%
Trade playables	97,036	90,691	7.0%
Technical retentions	19,641	18,816	4.4%
Total	116,677	109,507	6.5%

Real Estate Purchase Obligations

Real estate purchase obligations (R\$ '000)	03/31/2025	12/31/2024	Δ%
Land developed	109,945	114,215	-3.7%
Physical swap	15,189	18,326	-17.1%
Financial Exchange	94,756	95,889	-1.2%
Land not developed	6,856	6,884	-0.4%
Physical swap	6,856	-	-
Financial Exchange	-	6,884	-100.0%
Total	116,801	121,099	-3.5%

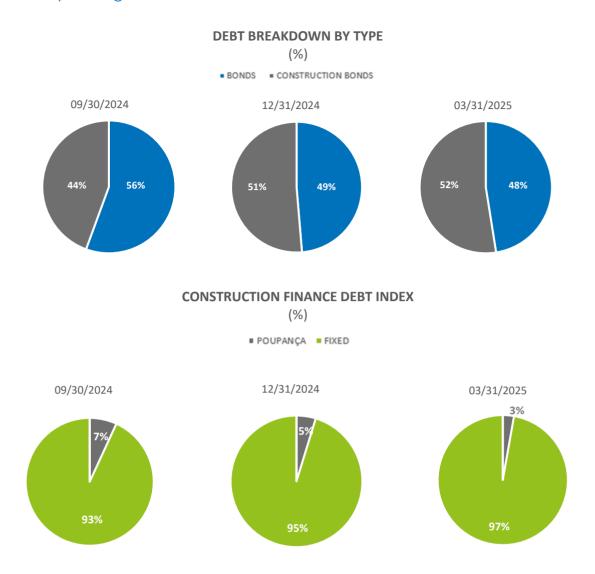

The drop in the balance of obligations for the purchase of real estate is due to the payment of obligations throughout the quarter and a lower acquisition of land with obligations to be paid on that date.

Indebtedness

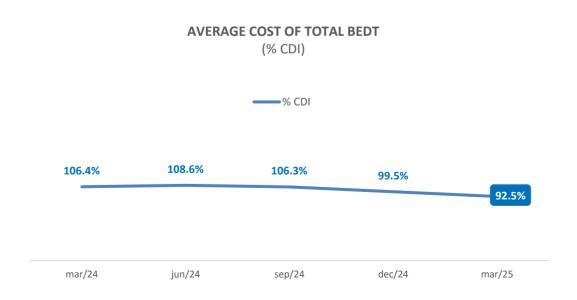

Net debt/ Equity (R\$ '000)	03/31/2025	12/31/2024	Δ%
Loans and Financing	1,304,921	1,228,400	6.2%

(/) Equity	569,069	565,112	0.7%
(=)Net Debt/ Equity	172.7%	139.9%	32.9p.p.

The increase in indebtedness reflects the growth of operations and the current stage of the construction cycle in relation to the flow of receipts.

We remain focused on early redemption and prepayment opportunities, continuously seeking to balance and optimize our liabilities. The company remains attentive to market conditions to improve our financial position, reduce costs and increase the flexibility of our capital structure.

The average cost of construction financing recently raised is higher than the previous harvest of funding. In other words, we expect an increase in the cost of financing over the next few periods.
